

# Level One

# Unit Five

Dear Family:

The concept in Unit 5 of Foundations is one that your child should grasp quickly. The sounds of the letters m and n come through the nose and because of this, the short vowel sound of a is somewhat distorted. Therefore, I teach the children that /am/ as in ham and /an/ as in fan are glued together because it is difficult to separate the a from the m or n.

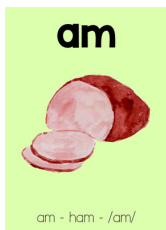

## Practice

**Practice writing and reading these sentences for fluency:**

- Jill can get the fan for Sam.**
- The man with a tan will shop for a pan.**

## Glued Sounds

Make sure your child knows the letters, keyword, and sound for am and an. Say the letters a - m, then the keyword ham, then the sound /am/. Say the letters a - n, then the keyword fan, then the sound /an/.

## Trick Words
